

Engelsk grammatik for begyndere. Grundregler for navneord, tillægsord og udsagnsord.

Meningen med disse sider, som du kan printe ud og bruge, er at slå nogle ganske få regler fast. Engelsk grammatik har, nøjagtig som den danske, så mange undtagelser, at reglerne nemt drukner. Et godt fundament for det videre arbejde med grammatikken er, at man kender grundreglerne. Her beskæftiger vi os kun med 3 ordklasser: Navneord, udsagnsord og tillægsord. Øvelserne er ganske simple. Henvisningerne er til det videre arbejde.

Navneord

På engelsk laver du flertal ved at sætte s efter navneordet.

Eksempler:

One boy	→	two boys
One horse		two horses
One duck		two ducks
One door		two doors
One table		two tables
One brother		two brothers
One sister		two sisters

Nu er det din tur – lav ental om til flertal:

One chair two _____

One picture two _____

One pillow two _____

One bed two _____

One spoon two _____

Og omvendt – lav flertal om til ental:

Two cups one _____

Two forks one _____

Two plates one _____

Two castles one _____

Two hats one _____

Udsagnsord

Det danske udsagnsord "er" hedder altid det samme.
Sådan er det ikke på engelsk. Her hedder det "**is**" i ental og "**are**" i flertal.

Eksempler:

Peter **is** a boy.

Kate and Ann **are** girls.

A bird **is** an animal.

Birds and cats **are** animals.

Nu er det din tur. Skriv **is** eller **are** på linjerne. Læg mærke til, om det er ental eller flertal:

Udsagnsord i datid

På engelsk laver du datid ved at sætte **ed** efter udsagnsordet.

Eksempler:

Today I listen. Yesterday I listened**ed**.

Today I play. Yesterday I played**ed**.

Skriv følgende udsagnsord i datid:

Laugh - _____ Look - _____

Cough - _____ Jump - _____

I (pulled) _____ the door open.

We (pushed) _____ the swing.

I (painted) _____ a beautiful picture.

Tillægsord

På engelsk hedder tillægsordet det samme, lige meget om det er ental eller flertal.

Eksempler på dansk:

En **kold** is – et **koldt** bad – ti **kolde** fingre.

Eksempler på engelsk:

A **cold** ice-cream – a **cold** bath – ten **cold** fingers.

Når du **gradbøjer** tillægsord på engelsk, skal du sætte **er** efter ordet i 2.grad og **est** i 3.grad

Eksempler på dansk:

Kold – kold**ere** – kold**est**.

A kilometre is short - a metre is _____ - a centimetre is _____

PAS PÅ: Nu kan rækkefølgen være anderledes:

A bike is fast – a car is _____ - a plane is _____

Til det videre arbejde med grammatik:

Hvis grammatikken skal indgå som en integreret del af undervisningen, kan det varmt anbefales at vælge et engelsk grundbogssystem, som bruges over hele verden.

Se en dansk introduktion af forskellige systemer på English Centers hjemmeside under "På dansk" i menuen til venstre.

Hvis man ønsker at arbejde med grammatik som et selvstændigt område, er der utallige muligheder. Herunder nævnes nogle:

Oxford University Press: Grammar one, Grammar two, Grammar three.

Cambridge University Press: Grammar Works 1, 2, 3.

Pearson Longman: New Grammar Time 1, 2, 3, 4 og 5

Desuden findes der mange sider med grammatik i kopimapper til fri kopiering:
